

## About us

Pleasant Engineers has been established in the year of 2006, along with the knowledge gained, helps satisfy the most stringent and evolving quality requirements of our clients. Expert team helps us in manufacturing products that are at par with international standard. There are three prominent values at PLEASANT ENGINEERS: Quality (Product & Service), Integrity, Honesty. Our products are available at cost effective price.

## Production Planning

Production of products is done in a very systematic manner. The orders of various customers are planned for production month wise for which a production plan is issued to Works as per delivery schedules of our various customers. A regular follow up of production activities/progress is done every week or as per emergence requirements through production review to ensure monthly sales targets.

## Quality Control

Pleasant Engineers always give profound importance to quality to ensure the best. We conduct stringent from the production of raw materials till the delivery of the finished products & after customer satisfaction. we are launching the production of each item and stage inspection is carried out during each operation/after each operation on sampling basis as per Sampling Plan for next lot production.

During the manufacture of items, if any dimensions is not confirming to drawing, a Non conformity Report (NCR) is prepared and corrective action is taken then and there. Since ours is a mass producing unit, sizes are thoroughly checked during the setting of the job. Quality control staff has the authority to stop the operation if any deviation in dimensions/process is observed at any stage of manufacture. Work is allowed to proceed further only after the necessary corrective action is taken. We are proud of our achievements and total Quality Product.

## Prospective Clients

Please find below mentioned our valuable customers.

<b>Name of Clients</b>	<b>Place</b>
I. Leak Proof Engineering India Pvt. Ltd.	Gujarat
II. Sealmatic India Pvt. Ltd.	Mumbai
III. Rotomek Seals Pvt. Ltd.	Ghaziabad
IV. Rolon Seals	Hyderabad
V. Astron Engineering	Gujarat
VI. Lecon Seal	Mumbai
VII. New Make Engineering	Mumbai
VIII. VelMake Seals	Mumbai
IX. Well Tech Engineering	Mumbai
X. Fitvel Industries	Mumbai

Thanks & Regards
